

JOHN LUIS NATHANIEL L. MERCADO

UI/UX DESIGNER • FRONT-END DEVELOPER

Davao de Oro, Philippines • 09487468794

CAREER SUMMARY:

UI/UX Designer and Front-End Developer specializing in designing and building intuitive, responsive web applications. Skilled in translating user needs into clean, functional interfaces using React and Tailwind CSS. Strong foundation in user research, wireframing, prototyping, and design systems, with the ability to bring products from concept to implementation.

WORK EXPERIENCE:

Front-End Developer (Internship)

Payroll Server-Based System | Nov 2025 – Feb 2026

- Developed responsive and user-friendly interfaces for the payroll system using modern front-end technologies.
- Translated UI/UX designs into functional web components and ensured smooth user experience.
- Integrated front-end features with backend APIs for efficient data handling and system performance.
- Improved usability by refining layout structure and interaction patterns

UI/UX Designer

Smart Hard Hat Monitoring System | October 2024 – July 2025

- Conducted usability testing to improve navigation and user experience
- Designed wireframes and prototypes for booking and information systems
- Enhanced accessibility and user flow for better conversion and engagement

RELEVANT PROJECTS:

Taskora – Task Management Web App

UI/UX Designer & Front-End Developer | Ongoing

- Designed and developed a task management system focused on priority and status workflows
- Built responsive and reusable UI components using React and Tailwind CSS
- Implemented task filtering, categorization, and interactive UI features
- Created wireframes and high-fidelity designs to guide development

EDUCATION:

2021 – 2026 | University Of Mindanao – Tagum Campus

Bachelor of Science in Information Technology

SKILLS:

Design

- Wireframing
- Prototyping
